

PAPPU

Full-Stack Developer (MERN Stack)

✉ pappu.isdev@gmail.com ☎ +91-7027088899 ♀ Rohtak, Haryana [LinkedIn](#) [Portfolio](#) [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack MERN Developer with hands-on experience building secure, scalable APIs and real-time systems. Currently developing backend infrastructure at Trigya Innovations Pvt. Ltd. with JWT/OAuth authentication, Firebase-powered notifications, and Node-cache performance optimization.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, React Router, Axios, Bootstrap, Tailwind CSS, Chakra UI
Backend	Node.js, Express.js, REST APIs, JWT Authentication, Google OAuth, Multer, Cloudinary
Database	MongoDB, MySQL/SQL, Zoho Catalyst Data Store
Tools	Git, GitHub, VS Code, Postman, Firebase, Zoho Catalyst (Serverless, Auth, Data Store)
Other	API Integration, Responsive Design, Payment Integration, Node-cache, Firebase Cloud Messaging

PROFESSIONAL EXPERIENCE

Trigya Innovations India Pvt. Ltd. • Back-End Developer

May 2025 – Present | Kharkhoda, Haryana

- ▶ Developed scalable backend services with Node.js and Express.js, supporting secure authentication and role-based access control for multi-user workflows.
- ▶ Implemented JWT authentication, Google OAuth login, and email OTP verification — reducing unauthorised access attempts and improving login security.
- ▶ Built a real-time notification system using Firebase Cloud Messaging and Cron jobs, enabling instant push delivery to active users.
- ▶ Optimised backend performance using Node-cache, reducing redundant database queries and improving API response times by ~35–40%.
- ▶ Designed modular REST APIs for clean frontend integration, ensuring consistent contracts across the stack.
- ▶ Built a 'Get in Touch' contact system with backend validation and spam protection to prevent automated or malicious email submissions.

PROJECTS

Developer Portfolio Website — MERN / Nest.js / Next.js [\[GitHub \]](#)

- ▶ Built a modern developer portfolio with interactive 3D models and animations, significantly improving engagement and visual experience.
- ▶ Implemented secure JWT + Google OAuth authentication for protected admin access and user management.
- ▶ Integrated REST APIs to handle form submissions, user interactions, and automated email notifications.
- ▶ Optimised performance and ensured secure data handling across contact messages and authentication workflows.
