

PROFESSIONAL SUMMARY

Experienced Full-Stack Developer with a strong foundation in the MERN stack (MongoDB, Express.js, React.js, Node.js) and modern frontend technologies including HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. Skilled in building and integrating RESTful APIs, implementing secure user authentication, and handling file uploads with tools like Multer. Proficient in database design, performance optimization, and developing scalable, maintainable web application. Currently contributing to product development at Trigya Innovations Pvt. Ltd.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Redux Toolkit, React Router, Axios, Bootstrap, Tailwind CSS, Chakra UI, API Integration, Responsive Design .
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, Multer, Cloudinary, GoogleAuth, JWT Authentication, REST APIs, Stripe Payment Gateway.
- **Database:** MongoDB, SQL/MySQL, Zoho Catalyst Data Store .
- **Tools/Platforms :** Zoho Catalyst (Serverless Functions, Authentication, Data Store), Git, GitHub, VS Code, Postman .

PROFESSIONAL EXPERIENCE

• Trigya Innovations India Pvt. Ltd.

Back-End Developer

05/2025 – present

Kharkhoda, Haryana, India

Lead the end-to-end development of a scalable e-commerce platform with a modern tech stack, delivering robust performance and seamless user experience.

- Designed and implemented serverless backend services using Node.js and Zoho Catalyst, leveraging its capabilities for data storage, authentication, and file handling
- Developed and optimized complex workflows, including admin panels, lead management, and data mapping, using a modular and scalable API architecture
- Spearheaded full API lifecycle management, improved UI/UX, and collaborated across teams to enhance application reliability, security, and scalability.

Professional Experience Overview

Backend Developer

Developed and maintained secure, scalable backend systems using Node.js, focused on authentication, notifications, and performance optimization

- Implemented token-based authentication, Google login, and email OTP verification with Nodemailer, ensuring secure and seamless user access control.
- Built a notification system leveraging Firebase Cloud Messaging (FCM) and Cron jobs for task-based reminders and real-time updates.
- Enhanced backend efficiency by using Node-Cache to minimize database calls and designed modular REST APIs for smooth integration with frontend systems.

EDUCATION

- Master of Computer Applications (MCA) – MDU, Rohtak (2023-2025)
- Bachelor of Computer Applications (BCA) – MDU, Rohtak (2021-2023, 74%)
- Senior Secondary (12th) – (2020, 73%)
- Secondary (10th) – (2018, 80%)

PERSONAL DETAILS

- Date of Birth: 15-Aug-2003
- Languages: English, Hindi
